Praising God

Leprosy was a horrible illness with no cure and those infected had to be isolated and kept apart from others. To be healed by Jesus was a wonderful healing for them as they could now return to their former lives. Only one of them returned to Jesus to say thanks and rejoiced praising God.

Thanksgiving is so important for us. Many of us take things for granted and never thank God for his blessings and help. May we always remember Gospel and the leper thanking Jesus for his healing. May it remind us of always saying thanks to God and to those who help us in any way.
